Houssam Eddine Ben Kheder

Data Science Intern

houssameddine.benkheder@esprit.tn +216 26684385 Tunis, Ariana

linkedin.com/in/houssam-eddine-ben-kheder-101230220 github.com/kira0987

PROFESSIONAL SUMMARY

Data science professional with expertise in machine learning, deep learning, and predictive analytics. Strong quantitative and programming background with proven ability to deliver AI-driven solutions.

EXPERIENCE

Data Science Intern — Jun 2025 – Aug 2025

VALUE Enterprise, LAC, Tunis

- AI-based agent simulations for geomarketing analysis and customer behavior modeling
- A/B testing and interactive visualizations using Dash and Plotly

Deep Learning Intern — Jun 2024 – Aug 2024

Tritux, LAC 2, Tunis

- Deep learning models for emotion detection from audio signals
- Neural network implementation and real-time classification systems

PROJECTS

AI-Powered Internship GeoMarketing Project
VALUE Enterprise, LAC | Jun 2025 – Aug 2025
LLMs, RAG, and AI agentic systems for web scraping and customer behavior modeling. A/B testing framework with Dash/Plotly visualizations for strategic geomarketing decisions.

AI-Powered Crypto Fund Due Diligence & Risk Assessment
VALUE Enterprise, ESPRIT | 2024-2025
RAG and LLM-powered system for investment fund analysis. Hands-on analysis of 800+ crypto risk questions covering whitepapers and risk categories. Automated PPTX report generation with DGX workstation computing.

Machine Learning: Churn Retention & Prediction
ESPRIT | 2024
Telecom customer churn prediction using Logistic Regression, Random Forest, Gradient Boosting, and PCA for targeted retention strategies.

Deep Learning: Voice Emotion Recognition
ESPRIT | 2024
Emotion classification from audio using Mel spectrograms, diffusion models, and ResNet-50 embeddings.

Deep Learning: MRI Brain Tumor Detection
ESPRIT | 2024
CNN-based web application for real-time brain tumor detection from MRI scans with high sensitivity and specificity.

EDUCATION

Computer Engineering — ESPRIT

Baccalaureate, Mathematics — Wafa School, Ariana

SKILLS

Technical
Python, SQL, PostgreSQL, MongoDB, .NET, C++, Java, R, Linux

Data Science
ML, NLP, LLM, RAG, Analytics, Statistics, Probability

Tools
PowerBI, Dash, Plotly, Project Management

Soft Skills
Problem-Solving, Teamwork, Presentation, Adaptability

LANGUAGES

Arabic: Native **French:** Good **English:** Good
